FISCAL IMPACT STATEMENT

LS 6869

BILL NUMBER: HB 1214

NOTE PREPARED: Jan 11, 2014

BILL AMENDED:

SUBJECT: Tissue Procurement Professionals.

FIRST AUTHOR: Rep. Bacon

FIRST SPONSOR:

BILL STATUS: As Introduced

FUNDS AFFECTED: ☒ **GENERAL**
☐ **DEDICATED**
☐ **FEDERAL**

IMPACT: State

Summary of Legislation: The bill requires an individual who harvests human bone, skin, tissue, heart valves, ligaments, or tendons to take a training program offered by the procurement company for whom the individual works and to register with the Medical Licensing Board (MLB). The bill requires the MLB to establish standards of practice.

Effective Date: July 1, 2014.

Explanation of State Expenditures: *Summary:* The MLB meets approximately 12 times per year. It is likely the MLB could adopt the required rules necessary to establish standards of practice for the human organ organizations within the course of a regular meeting. The PLA information technology staff may need to make changes to the PLA's licensing database. There are about five to 10 organ procurement entities in Indiana employing less than 100 individuals. Given the potentially low number of individuals to be registered, the additional staff time required to input their information would likely be negligible.

Explanation of State Revenues:

Explanation of Local Expenditures:

Explanation of Local Revenues:

State Agencies Affected: MLB, PLA.
